

SIRIUS Asset Monitor

Product Sheet and Specific Terms

The MindSphere application SIRIUS Asset Monitor provides transparency on the status of your low voltage applications. You will get an overview of data provided by your Assets which contains useful information on the current operation and which may help you to detect anomalies in your process data and to optimize your processes.

Prerequisites

Subscription	A valid MindAccess IoT Value Plan (Small/Medium/Large) subscription is required.
Web browser	An HTML5 capable Internet browser is required. Google Chrome or Microsoft Edge browser is supported. Google Chrome is recommended. The preferred screen resolution is 1920x1080. Mobile devices are supported through the use of HTML5 capable Internet browser. Desktop or Tablet is recommended.
Hardware	This application is only compatible with data provided through SIMOCODE pro V PN (firmware version 2.1.1 or later) with a current voltage measuring module V2 in connection with a MindConnect Nano or MindConnect IoT2040 devices.

Description

General	This application provides the following views for an Asset: Overview, Diagnosis, Maintenance, Energy Monitoring and Pump (for the Pump Dry Run Protection of SIMOCODE). For your configuration of SIRIUS Asset Monitor for SIMOCODE the application already provides you with predefined configuration settings.
Overview	Shows information of the selected Asset inserted by you, e.g. which motor is monitored by your Asset.

Diagnosis	Shows the actual state and the history of diagnosis and alarm messages for the selected Asset and for a timeframe defined by you.
Maintenance	Shows the actual state and history of maintenance-related KPIs. Allows you to add maintenance timers. Informs you when the next maintenance is expected and sends email notifications if a maintenance timer is overdue.
Energy Monitoring	Shows values of consumed energy, active power and apparent power in a diagram within a selected timeframe.
Pump	Shows the date of a dry run of SIMOCODE within a selected time frame.
Application permission	<p>This application is operated in data centers in Germany and processes the following data:</p> <ul style="list-style-type: none"> • Time series data which includes the variables received from an Asset within defined continuous time cycles. • Asset configuration data which describes the Asset (e.g. name, location). <p>The application performs the following activities which modify or amend Your Content in your MindAccess Account on your behalf:</p> <p>Read access on your time series data:</p> <ul style="list-style-type: none"> • The application reads uploaded data from your data repository to evaluate and process certain information presented in different views within this application. <p>Read and write access on your configuration data for you Asset and agent:</p> <ul style="list-style-type: none"> • Read and write access on asset configuration data is required in order to use the functionalities of this application.

Pricing Model		
Fee for	Base subscription	Upgrade subscription
Included number of Assets	10 Assets/month	Additional 20 Assets/month
Billing cycle	Monthly in advance	Monthly in advance
Base subscription	Base subscription allows access and use of the application with up to 10 Assets.	
Upgrade subscription	Upgrade subscription is purchased in 20 Assets increments. For example, if 15 Assets are required, the base subscription plus 1 upgrade subscription is required. The combination of 1 base subscription and 1 upgrade subscription allows for access and application use for up to 30 Assets.	
Adding and cancellation of an Asset	You may add and delete Assets in the application at any time. In order to do this, administration rights are required.	
Payment Terms	The price for the base and upgrade subscriptions is charged monthly in advance.	
Subscription Term, Termination for Convenience	The minimum initial Subscription Term for the base subscription is 3 months and for the upgrade subscription is 1 month. Following expiration of the preceding Subscription Term, the subscription automatically renews with a Subscription Term of one month until terminated either by you or us for convenience at least 30 days in advance. The termination shall become effective at the end of the month.	

Adaptation of Fees	We may change or add new fees (collectively referred to as “Fee Change”) due to and to the extent required to reflect: (i) changes in the quality or functionalities of the Service; (ii) material changes in market conditions; (iii) general increases in wages or other employment costs; and/or (iv) changes in procurement costs due to price changes made by our suppliers, in each case to the extent that the changes affect our provision of the agreed Service. We will notify you of any Fee Change at least 60 days in advance of the effective date of the Fee Change.
Authorized limits	Should the actual usage of your base subscription and/or upgrades size repeatedly exceed one or more of the applicable limits above (e.g. the number of Assets for your Plan size), and should you not order the appropriate increase of usage capacities for an additional fee, we reserve the right to suspend the Service. Other contractual rights and remedies remain unaffected.

Specific Terms	
Application use rights	<p>This application can be used as part of OEM Services as described in the Specific Terms for MindAccess IoT Value Plan published on www.mindsphere.io/terms.</p> <p>Under the Account of your MindAccess IoT Value Plan, you may permit Users of Third Parties to access and use this application for the purpose of receiving a service from you.</p>
Service Level	<p>We will use commercially reasonable efforts to make the application available with a Monthly Uptime Percentage of at least 90%. Monthly Uptime Percentage is defined in the MindSphere Supplemental Terms available on www.mindsphere.io/terms.</p>
Third Party Terms	<p>The application contains Third Party services, including open source software, commercial software, or software-related managed services, which are subject to additional or different terms, license rights, or require certain notices by their licensors, which we are obliged to pass on to you as your licensor and to which you agree to abide (“Third Party Terms”). The Third Party Terms are made available via the following web link: https://sie.ag/MindSphere-ThirdParty_SIRIUSAssetMonitor.</p>
Changes to the Product Sheet & Specific Terms	<p>We may update this document from time to time during a Subscription Term in order to reflect any changes agreed with or imposed by our subcontractors (including changes in open source software license terms) or when we introduce new features, supplements, enhancements or capabilities (e.g. that were not previously included with the subscription but added for no additional fee). Changes shall become binding upon release of a new version of this document on www.mindsphere.io/terms.</p>
Data Use Rights	<p>“Collected Data” means the following data collected by this application:</p> <ul style="list-style-type: none"> • Time series data which includes the variables received from an Asset within defined continuous time cycles. • Asset configuration data which describes the Asset (e.g. asset name, location). • Agent configuration data.

	<p>You acknowledge that Collected Data may include copies made by the application from certain parts of Your Content for use in accordance with this Product Sheet & Specific Terms.</p> <p>During and after the Subscription Term, Siemens and its business partners may use Collected Data for Siemens' internal purposes (e.g. development and improvement of products and services).</p>
Additional Terms for Notification Services	<p>This application leverages MindSphere's Notification Services for the sending of emails and other types of messages. The terms and conditions set out in these Supplemental Terms for Notification Services available on www.mindsphere.io/terms also apply to your use of the application.</p> <p>Email notifications included in the application rules are limited to 20 emails per day and email address and/or 2000 emails per day in total.</p>
Support	<p>Remote support for this application is available.</p> <p>You have to ensure remote access to your local networks for e.g. remote-diagnoses. Support may be contacted via phone: +49 911 895 7222</p> <p>Hours of operation are: Monday through Friday, 8:00 am to 5:00 pm CET, excluding national and local holidays (Germany, Nuremberg). Outside of the 8:00 am to 5:00 pm local time window, a request can also be created via website: https://support.industry.siemens.com</p> <p>Support is available in English and German.</p>

Security Information

General	In order to protect plants, systems, machines and networks against cyber threats, it is necessary that you implement and continuously maintain a holistic, state-of-the-art industrial security concept.
Secure communication	Data transmission will be done via HTTPS protocol from asset to your MindAccess Account.

Definitions

Asset	An Asset is the logical representation of a thing which can be a machine or an automation system with a single or multiple automation unit(s) e.g. PLC or even a factory site. Assets are defined using an Asset type.
SIMOCODE	Shall mean Siemens' motor management and motor control products marketed under the brand "SIMOCODE".
General	All other capitalized terms in this document shall have the meaning given to them in the MindSphere Agreement.
