MindConnect API Training
Product Sheet

This one day training provides detailed insights into MindConnect API, which enables you to build your own custom agent for MindSphere. You will learn how to develop your own custom agent using your preferred programming language and how to use MindSphere RESTful API to enable data exchange between your custom agent and MindSphere. The MindSphere security concept and the onboarding process of a new agent are covered in detail. You will implement your own step-by-step custom agent that interacts with MindSphere.
