

MindConnect Device Training Product Sheet

This one-day training provides an overview of the MindSphere connectivity portfolio. During hands-on training, you will become familiar with MindConnect devices, their settings, and areas of application. While using MindConnect IoT2040 and MindConnect Nano, you will use the MindSphere Asset Manager to configure a data source and its data points and to collect and send data. Additionally, you will configure an Open Platform Communications Unified Architecture (OPC UA) server to collect data in MindSphere.
