

# MindConnect Device Training Product Sheet

This one-day training provides an overview of the MindSphere connectivity portfolio. In hands-on practices, you will become familiar with the different MindConnect devices, their settings and area of application. Using MindConnect IoT2040 and MindConnect Nano, you will sample the MindSphere Asset Manager to configure a data source and its data points as well as to collect and send data. Additionally, you will configure an OPC UA Server to collect data in MindSphere with OPC UA.
