

MindConnect Integration Training Product Sheet

MindConnect Integration is the Integration Platform as a Service (iPaaS) offering of MindSphere. The solution enables you to integrate your cloud-based Software as a Service (SaaS) applications, with other cloud-based applications. It also integrates your SaaS applications with on-premise applications. This one-day training provides detailed insights into MindConnect Integration and how to easily develop and configure cloud-to-cloud integration. You will also get an introduction about how to connect cloud-based SaaS applications and on-premise ESB implementations. With this hybrid integration solution, you have the power to connect anything with everything, including mainframe applications and other data sources.
